VOX™ Touch

Multipoint Bluetooth Headset

Bluetooth 2.1

Touch Sensitive

Multi-use

Noise Cancelling

Auto Volume

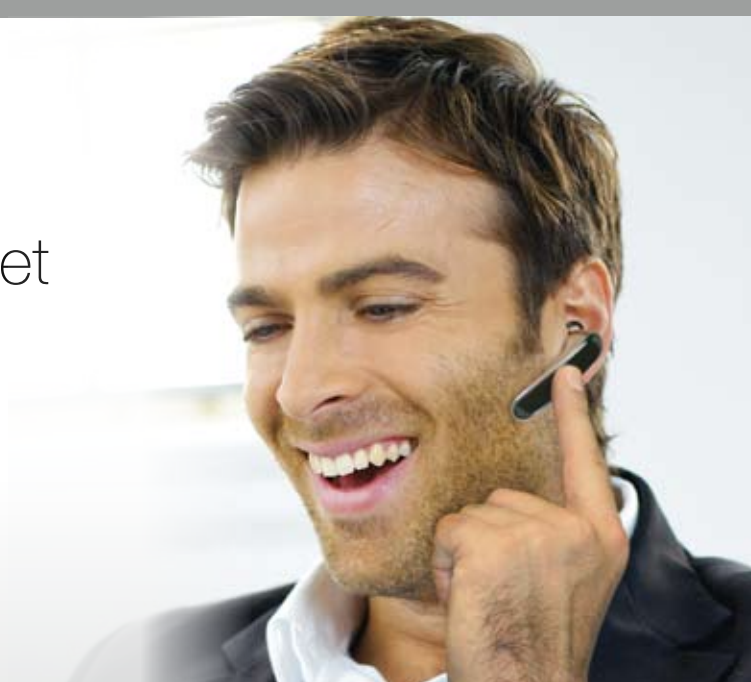

A perfect blend of high-tech and aesthetics.

- Touch-sensitive controls for all calling functions with a stylish look.
- Simultaneous connections to both cell phone and PC with easy pairing.
- Intelligent noise cancellation and auto volume functions deliver crystal clear sound quality.

VOX™ Touch

Multipoint Bluetooth Headset

A perfect blend of high-tech and aesthetics.

With the enhanced full-touch capabilities, VOX™ Touch brings you a whole new experience to control all calling functions with one simple touch. It also features multipoint connections to work with your PC and cell phone simultaneously with crystal clear sound quality.

Touch-sensitive controls

Explore the most intuitive way of controls with a simple touch. Advanced touch sensor designed for all calling functions – single touch to answer, double tap to end a call, slide and hold to adjust volume, and much more.

Advanced noise cancellation

Active noise cancellation with Digital Signal Processing (DSP) technology detects and eliminates environmental noises to keep your voice crystal clear wherever you are.

Intelligent auto volume

VOX™ Touch features intelligent volume detection to continuously adjust the speaker volume based on the surrounding, so you will always hear your friends clearly even when walking from a quiet office to a loud meeting room.

Ergonomics ear buds for wearing comfort

Two types, six in sizes ear buds provide the ultra comfort for Bluetooth headset wearing. Proprietary Perfect-Fit ear buds feature ergonomic shape to conform to your ears without the feeling of any intrusion, while In-Ear buds keep the voice inside and block the noise out. The choice is yours!

Portable charging stand

Fold it up for easy carrying, the stylish foldable charging stand with the magnetic bottom base allows you to attach it to any metallic surface.

Simultaneous connections to cell phone and PC

No more joggling between headsets!

VOX™ Touch features advanced multipoint technology that connects to both cell phone and PC simultaneously; enjoy wireless online chatting with friends and be notified when a cell phone call comes in, then simply touch to put the PC call on hold and answer the incoming call. Communication has never been so easy with VOX™ Touch!
