# D500 WIRELESS

Laser Mouse

For the curious mind looking to quench your thirst for information.

D500 wireless laser mouse features proprietary FastFind™ function allowing for instant access to your favorite Internet search engine with just one simple click of a highlighted text on any electronic document. In addition, its 2.4GHz LaserStream™ USB micro receiver leads the way in secured and uninterrupted connection; while energy saving EnergyMAX™ solution extends battery life for up to 12 months, making the mouse ideal for desktop and prolonged usage.

### LaserStream™ for pixel precision

Superior laser sensor technology for easy navigation on surfaces proved difficult for the traditional optical mice.

### Efficient 4-way scrolling

4-way scrolling supports driver-free vertical and horizontal scrolling on Microsoft Windows Vista system.

### 2.4GHz for optimal connection

Leading wireless technology automatically senses and overrides interferences, and switches to a secured frequency ensuring uninterrupted connection.

### Soft touch anti-slip handgrip

Proprietary design with soft rubber anti-slip surface treatment providing outstanding contoured comfort and handling.

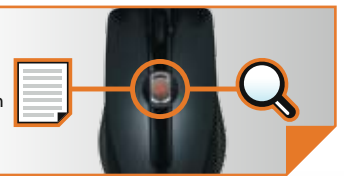

### EnergyMAX™ extends battery lifeup to 12 months

Energy saving solution prolongs battery life for up to 12 months, plus a smart power indicator monitors battery level and reminds users when a change is due.

### Driver-Free FastFind™

Automatic plug-and-click button for instant access to your favorite Internet search engine.
