

S100 **LASER**

USB Mouse for Notebooks

Optimized for all mouse actions, whether rushing a report or for a quick round of online games.

- Ultimate switchable 3-speed DPI advantage, ranging from 800 dpi to 1600 dpi.
- LaserStream™ technology for extreme accuracy and seamless tracking on any surfaces.
- Easy 4-way scrolling for vertical and horizontal navigation while viewing documents or browsing internet.

S100 LASER

USB Mouse for Notebooks

A class of its own!

Featuring switchable DPIs of 800/1200/1600, S100 is ideal for all mouse actions, whether rushing a report or for a quick round of online games. In addition, it also offers convenient one-touch button on the mouse top for easy window management, plus advanced LaserStream™ technology for greater precision.

LaserStream™ for Pixel Precision

Advanced laser sensor technology for easy navigation on surfaces proved difficult for the traditional optical mice.

Easy Window Management

Convenient one-touch button on the mouse top to enable application-switch (single-click) or Windows Vista's Flip-3D (double-click) functions.

Efficient 4-way Scrolling

4-way scrolling supports driver-free vertical and horizontal scrolling on Microsoft Windows Vista system.

-  Steady Blue = 1600 dpi
- 
-  Steady Orange = 1200 dpi
- 
-  Blinking Orange = 800 dpi

Switchable DPIs of 800/1200/1600

Hold button for 3 seconds to access and shift among three DPI levels for different applications.
