

Twister™ 1000

WIRELESS

Laser Pocket Mouse

Experience the ultimate in mobility and style!

- Unique SmartTwist™ design for those constantly on the go.
- Mouse twists slim flat, just 1.85cm thick, for transport-friendly in any pocket or bag.
- Mouse twists into an arch-shaped device ideal for ergonomic navigation.

Twister™ 1000

WIRELESS

Laser Pocket Mouse

Experience the ultimate in mobility and style.

Ideal for those constantly on the go, Twister™ 1000 features unique SmartTwist™ design. The mouse can rotate to ultra slim flat for transport-friendly in any pocket, and then to an arched device for ergonomic navigation.

LaserStream™ for pixel precision

Advanced laser sensor technology for easy navigation on surfaces proved difficult for the traditional optical mice.

EasyTouch™ glide panel for smooth scrolling

Proprietary design for easy scrolling with notebook track pad-like touch sensitive feeling.

EnergyMAX™ extends battery life

Energy saving solution prolongs battery life up to 6 months, plus a dual-color indicator light monitors battery level and serves as a reminder when a change is due.

"Push-push" 2.4GHz USB micro receiver

Convenient self-storable USB micro receiver for automatic power on/off.
Receiver OUT = Power ON
Receiver IN = Power OFF

SmartTwist™

Revolutionary rotation mechanism with a robust hinge transforms the mouse from ultra portable flat to a comfortable arch-shaped device with just one quick, simple twist.
