Enjoy your favorite tunes while doing other things

- Unique side jog-dial for quick and convenient plug-and-play multimedia control.
- Advanced LaserStream™ technology for extreme accuracy and seamless tracking on any surfaces.
- Right-handed design with soft rubber anti-slip treatment for contoured thumb support and handling.

Hybrid XQ200

MULTIMEDIA

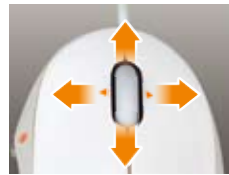

mini Mouse

Enjoy your favorite tunes while performing other tasks. Stylish Hybrid XQ200 multimedia mini mouse features a unique side-jog dial for quick and convenient plug-and-play media launch and control. In addition, its right-handed design, plus soft rubber anti-slip surface treatment and thumb grip, provide contoured handling and lasting comfort.

Plug-and-play multimedia enjoyment

Programmable side jog-dial for easy driver-free media launch on Microsoft Media Player.

Efficient 4-way scrolling

4-way scrolling supports driver-free vertical and horizontal scrolling on Microsoft Windows Vista system.

Comfortable thumb-grip

Proprietary right-handed design with soft rubber anti-slip treatment provides contoured thumb support and handling.

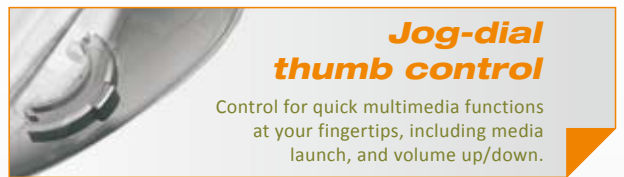

1000 dpi for precision tracking

Advanced optical sensor technology with 1000 dpi tracking resolution for superior performance.

8 programmable buttons

Easy-to-use software bundle allows users to program personal favorite functions to each button.

Jog-dial thumb control

Control for quick multimedia functions at your fingertips, including media launch, and volume up/down.
